Description	

On February 24, 2024, a national awareness program on the subject of intellectual property rights was organized by the Intellectual Property Rights Cell, Gautam Buddha University. The event was sponsored by Council of Science and Technology, Lucknow, Uttar Pradesh,. The hon'able Vice Chancellor, GBU, Prof. Ravindra Kumar Sinha, graced the occasion as the chief guest. He mentioned that artificial intelligence is the demand of the present time, and by utilizing it in various fields of life as well as in the legal domain, we can solve many problems. There are endless possibilities in the field of legal research and legal business. Special guest, Registrar, GBU, Dr. Vishwas Tripathi presented his views on various dimensions of research in the field of

artificial intelligence and intellectual property rights.

Guest speaker Mr. Vikrant Rana, Managing Partner of Intellectual Property Rights and Corporate Firm, delivered a lecture on the impact of artificial intelligence on intellectual property rights and its legal business. Following the sequence, Dr. Sangita Nagar from the Science and Technology Department of Typhic presented her views on the changing nature of intellectual property rights. In the same sequence, Dr. Sanjeev Kumar Mazumdar, Senior Manager of NRDC, Startup, and IP Consultancy of the Government of India, addressed the audience on NRDC Technology and Industrialization. Associate Professor Dr. Shaiwal Satyarthi from the Department of Law, University of Delhi, presented his views on 'copyright and its protection: compatibility and challenges', stating that artificial intelligence encompasses vast possibilities in the copyright domain, which will facilitate not only the study and teaching of legal subjects but also provide ease in research. However, he also stated that caution must be exercised in the technical application, otherwise, it may also give rise to legal disputes. Associate Professor Dr. Amarendra Kumar Ajit from the same department, expressed his views on 'patenting life forms: past, present, and future'. The programme was concluded by vote of thanks by Dr. Shakti Sahi, Nodal Officer, IPR cell, GBU.
