

I welcome all to Mechanical Engineering Department (MED). Mechanical Engineering Department is committed to provide not only the technical education to our students but also the leadership qualities and technically strong to think and create some innovative ideas for science and technology. MED focuses on the development of the students by a combination of both curricular and extracurricular activities. We believe that to develop an innovative mind, we need to go beyond class room teaching and so we have well equipped lab facilities, which help to make the students industry ready.

In Mechanical Engineering we provide specialization in design, thermal and manufacturing areas. The Department also takes initiative to improve the soft skills, analytical capabilities and verbal communication of the students so that they can face the competition in the corporate world confidently.

The Department has a team of highly experienced and motivated faculty members who are in the process of tuning the young minds to make them globally competitive. Innovative methods of teaching and learning process are adopted to achieve learning abilities through practice, exposure and motivation. Above all, the entire teaching fraternity of the Mechanical Engineering Department look forward to the holistic growth of the department and they aim at doing something extraordinarily remarkable in the academic arena of Mechanical Engineering. I congratulate to the team of faculty members and the students for their brilliant and original efforts.

I wish all the students a great academic career a head after going from here.

Dr Dharamvir Mangal
Head of the Department
